# The Magic Of Science

 Captain Green, one of Barcelona's superheroes, is building a map of the city, but... he has lost 10 critical components to achieve it. You need to find them to finish his big project.

 Participants will explore and discover amazing sites throughout the city during this 2- week offering. Billed as Magic of Science, daily experiences will revolve around exploring and learning about different areas of STEAM linked to each site visited or activity. Additionally, participants will do physical activities such as hiking and playing some football.

 Your child will explore the following:

1. The history of Barcelona
2. New technologies
3. Research and Science
4. Health and Nutrition
5. Art and Architecture
6. The Importance of Sports
7. Science Fiction
8. Cities of the Future
9. Nature and the Environment
10. Media
